

Pregnancy Decision Health Centers

Empower individuals to make healthy choices consistent with the intrinsic value of human life.

We serve expectant mothers and fathers and their newborn babies, all family members, and friends who contact us on behalf of a loved one, women healing from abortion and middle/high school youth receiving abstinence education.

The dear souls who visit PDHC need love and support as they are in a crisis and are not sure where to turn and what to do next. The women are many ages and stages in life and we welcome them and give them the services and attention they need and deserve.

A baby girl celebrates her first birthday.

Please pray for

- *The young women, that they will respect their bodies.*
- *Those who are faced with an unexpected pregnancy, that God will comfort them and show them the right path.*
- *Those who have had an abortion, that they will find healing and peace.*
